

MURRAY

MURRAY CORPORATION Clamping Solutions

Keystone Pinch Clamp (Mechanical) - SAE Type "J" (KSC)

Murray KEYSTONE clamping products offer superior strength from 100% stainless steel.

Common Clamping Applications:

Irrigation • Water Supply • Fuel & Vapor lines • Beverage Supply Lines

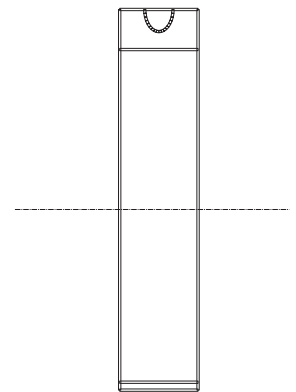

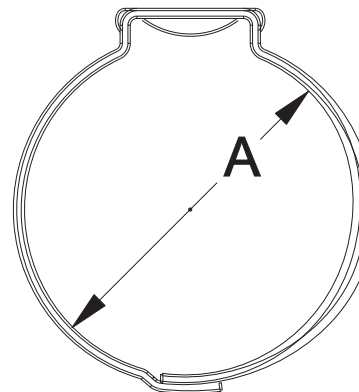

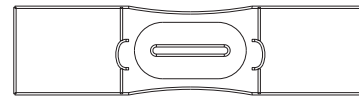

Car Wash Supply Lines • Dust Shields & Air Filters • Bundles of Cable

Keystone Pinch Clamps are mechanically attached and are quick and easy to install, and provide a uniform, tamper proof seal. They are widely used on both soft hose and rigid plastic pipe. You will find these clamps anywhere you connect poly pipe. Ear clamps are excellent for use in a multitude of irrigation and water supply systems, on fuel and vapor lines, to attach dust shields and air filters, for beverage supply lines, for car wash supply lines, and for securing bundles of cable. Keystone Pinch clamps are 100% 300 Series Stainless Steel.

Mechanically Attached

Part Number	"A" Diameter Range			
	Metric		Decimals
